Placing a Multipoint Call

You can place multipoint calls in several ways.

- Place a call, then add more sites to that call by pressing Call on the remote control, selecting Add Video Call, and placing a call to the next site. Repeat until all sites are connected.
- Select Multipoint from the Home screen if your system is configured to display that button. Enter the names of the sites you want to call by using the Directory or by manually entering the phone numbers of the sites. Press Call .
- Press Directory on the remote control, find a
 mulitple site entry in the directory list, and press
 Call on the remote control.
- Place a cascaded multipoint call by placing a multi-site call from the Directory or placing calls one at a time to up to three other sites then asking each site to call up to two additional sites.

Video Etiquette

Good video conferencing etiquette is really just common courtesy and respect for the people in your meeting. Read through these tips for successful conferencing.

- Introduce all conference participants when the meeting starts.
- Introduce yourself when you start speaking.
- Make sure that you can see and hear the far-site participants.
- Adjust your camera and microphone so that the far site can see and hear you.
- Place the microphone between the monitor and the people closest to the monitor.
- Avoid tapping on the microphone or rustling papers near the microphone.
- Mute the microphone before moving it so that the far site doesn't hear you moving it.
- Speak in your normal voice without shouting.
- In a multipoint call, mute your microphone when you are not speaking.
